---

Highly organized and analytical professional transitioning into cybersecurity, with experience across law enforcement, media production, and leadership roles. Calm under pressure and strong in critical thinking and problem solving, I bring a unique blend of technical skill, operational experience, and human-centered problem solving to support secure, data-driven decision making. Actively seeking opportunities to contribute to cybersecurity teams and continue growing within the field.

## EDUCATION

---

**Springboard | Cybersecurity Bootcamp** *Currently Enrolled*

- 380+ hours intensive course in Cybersecurity methodologies and technologies with 1:1 industry mentor oversight; preparing for CompTIA Security+ Certification.
- Mastering skills in systems security, network security, vulnerability, and risk assessments.

**Emory University | Data Analytics Bootcamp** *September 2025*

- Immersive data analytics training designed to provide conceptual and practical knowledge of Excel, SQL, Python, Programming Fundamentals, ETL, Data Visualization using Tableau, Generative AI and its applications in data analytics.

**Charlotte Technical College | Professional Culinary Arts & Hospitality** *May 2015*

- ACF Certification.

**Western Illinois University** *December 1996*
